Press release : Terraillon at CES 2017

**HOMNI**  
EXPERIENCE A SMART SLEEP

**LAS VEGAS, NV**  
January 5-8, 2017

## **CES 2017 : Terraillon will launch HOMNI and showcase their complete wellness line**

January 5th to 8th in Las Vegas  
TECH West – **Stands Expo, Stand #44 147**

Terraillon, a French brand with over 100 years of experience creating cutting-edge smart and connected health-focused devices, will launch their latest connected wellness product, the Homni smart sleep solution, at CES 2017.

### **HOMNI : the smart sleep solution**

Designed in France, Homni is a smart lamp that promotes healthy sleep with sensors, light cycles and sounds. Connected to the new Terraillon dedicated app, Homni analyses the temperature, light, humidity and noise of room environment to provide users with tips to achieve a good night's sleep. A combination of luminosity and ambient sounds creates a gentle falling asleep and effective wake-up, for a positive and efficient day.

---

### **R- LINK : the thinnest connected bathroom scale in the world**

This attractive, ultra-slim, connected scale is designed with the most innovative features essential to weight-loss. Thanks to Terraillon's BodySense technology, the scale calculates weight and body composition, while the Bluetooth Smart function automatically synchronizes the collected data with the Terraillon Wellness Coach app to help users track results easily.

---

### **NUTRISMART : the first connected kitchen scale that analyses food nutritional value**

NutriSmart integrates a revolutionary technology : a tiny SCiO sensor that analyses the food to determine its chemical makeup and provides its nutritional information. Thanks to this micro spectrometer, Nutrismart delivers relevant insights such as calorie, fat, proteins and water content for any kind of food weighed. Linked to the Wellness Coach app, Nutrismart uses E-learning technologies to provide more accurate analysis according to user experience.
